México City, July 23rd, 2005

Dr. Tonatiuh Matos

Physics Department, Cinvestav

Dear Dr. Matos

As one of the founders of the Mexican Schools of Astrophysics, held in Guanajuato, Mexico in 1997, 1999 and 2002, and in the name of all previous organizers, I want to thank you and recognize your upstanding effort as the

Chairman of the Organizing Committee
of the
IV Mexican School of Astrophysics "EMA05"

which took place in Morelia, Michoacan, Mexico, July 18-23, 2005.

EMA05 was indeed an excellent scholl, with courses on Gamma Ray Bursts, Pulsars and Strong Field Gravity, Supernovae Explosions and Nucleosynthesis, Ultra High Energy Cosmic Rays, and Solar Activity presented by some the world leaders in these fields, and was attended by graduate students and researchers which enjoyed the warm and motivating atmosphere.

With warm regards

Dr. Jorge G. Hirsch G.
