Dr. Tonatiuh Matos Chassin (born 20/9/1958) from the Centro de Investigacion y de Estudios Avanzados del IPN, Departamento de Fisica, has been a collaborator at our Institute during the academic year 1989/90. He has participated in advanced courses on the theory of elementary particles and in research seminars. His stay at our Institute was extremely satisfactory for our research group as — I believe — also for himself.

W. Kummer
