Dear Dr Matos,

Welcome to the Frontiers community!

By having accepted this position in "Frontiers in Mathematical Physics", which will begin as a specialty section of Frontiers in Physics, you also agree to some practical work to successfully launch and run your specialty.

Review Editors have a much more important role in Frontiers than in any other journal. In Frontiers you have the opportunity to shape and grow your field.

While this is essentially a volunteer appointment, it requires from you a strong commitment to devote the time and energy required to ensure the highest possible quality of scientifically valid articles published in Frontiers. Please familiarize with the Frontiers Terms and Conditions (T&C) for Review Editors that you have just accepted; Frontiers will notify you by email of periodical revisions, and you can always access the latest T&C here: <http://www.frontiersin.org/EbTermsAndConditions.aspx?SRID=13>.

By having accepted this position you agree to help build Frontiers in Mathematical Physics.

Get started!

1. Complete your profile and expertise on Frontiers here: <http://www.frontiersin.org/Profile/EditProfile.aspx?EP=99334>
2. Read the Review Editors guidelines here: <http://www.frontiersin.org/Journal/MyReviewAssignment.aspx?stage=21>
3. Read the Frontiers Review guidelines here: <http://www.frontiersin.org/Journal/MyReviewAssignment.aspx?stage=20>
4. Familiarize with and use the Frontiers networking here: <http://www.frontiersin.org/myhome/myhome.aspx>
5. Submit one of your own papers here: <http://www.frontiersin.org/Submission/SubmissionInfo.aspx>
6. Suggest or host a Research Topic here: <http://www.frontiersin.org/Journal/ManageSpecialTopic.aspx?mode=Suggest>
7. Learn more about Frontiers: <http://www.frontiersin.org/about>

We wish you great success in your specialty section and look forward to this becoming the leading place to publish for your community.

Should you have any questions or comments or should you need any assistance, please do not hesitate to contact our Frontiers Editorial Office.

Best regards,

Your Frontiers in Physics team
