Subject: Dark Matter 2002

Dear Dr. Matos---

Our fifth UCLA symposium, Sources and Detection of Dark Matter and Dark Energy in the Universe, will be held February 20-22, 2002 at the Marriott Hotel in Marina del Rey, California. We anticipate that this meeting will be exciting and informative. These are exciting times and on behalf of the organizing committee we invite you to give a talk on Scalar Field Dark Matter during our conference to share the latest research and discoveries.

If you have yet to investigate the conference web site, the direct link is:

http://www.physics.ucla.edu/hep/DarkMatter/dm2002.html

The Dark Matter 2002 web site also offers the conference agenda, updated regularly as new talks are included.

If you are already registered for Dark Matter 2002, we would also like to encourage you to make your hotel reservations as soon as possible. The Marina Beach Marriott, the site of this year's conference, is conveniently located near the Los Angeles International Airport.

Please let us know if you have any questions about Dark Matter 2002. We look forward to seeing you in Marina del Rey.

Regards,
D.L. MacLaughlan-Dumes
